GENERAL INFORMATION: Business Cards

Imprint Processes

Blind Debossing

Debossing is an ink-free process similar to embossing, yet essentially the inverse. Instead of pressing a design from the back of the stock to create a raised image, debossing presses the design into the stock to create an indented image. This process can also be done with ink or foil and can, in some instances, be in register with them.

Blind Embossing

Blind embossing is a very subtle technique that is similar to stamping or engraving, except without ink. A design or text is pushed into the back of the paper using a metallic die and a counter die to leave a raised impression in the front, producing incredibly sophisticated stationery that can be both seen and felt. The raised representation of the design can either be a single-level, one dimensional design or a multiple-level, three-dimensional design created with a brass die.

Engraving

Engraving is a process similar to embossing, that uses pressure and ink. A die with an image or text etched into it is coated with ink. The excess ink around the non-imaging area of the die is wiped clean. The remaining ink resides only in the printable area of the die. This image is then pressed into the front of the paper. The resulting appearance is a slightly raised ink.

Enhanced Finishes: Raised Foil

With a look similar to foil embossing, Raised Foil brings depth and shine to your full color design. Add Raised Foil for a touch of raised metallic shine in your choice of nine different colors.

Enhanced Finishes: Raised Spot Gloss

Bring Spot Gloss to a new level! Not only does Raised Spot Gloss add an element of shine to your full color design, it adds dimension that makes those design elements stand out even more.

Enhanced Finishes: Spot Gloss

Used to add a touch of shine to your full color design, Spot Gloss can be used to create shining designs on its own or can enhance elements of your design with a glossy finish.

Flat Printing

Also called lithography, flat printing is the classic combination of ink and paper, creating an image that is level with the surface of the paper — neither raised nor depressed. Offset printing presses are used to transfer the image from a plate to a rubber blanket. The image is then transferred from the blanket to the paper.

Foil Embossing

Also known as hot leaf embossing, this process combines both embossing and foil stamping in either two steps (see definitions of “embossing” and “foil stamping”) or in one step using a foil emboss die which can be single or multilevel. Foil embossing requires both heat and pressure to push the design through the back of the paper into the foil and die at the same time. The resulting effect is a raised metallic image on the front of the paper.

Foil Stamping

Foil stamping, also known as hot stamping, is a process that uses heat and pressure along with metallic foil material to stamp a flat design or text onto paper via a metallic die. Foil stamped products immediately draw attention with a flashy, lustrous effect. When ordering, use the foil stamping or ink with foil stamping upcharge on the price grids for the paper you've selected.

Full Color Process - Flat and Raised

Ideal for complex color variations in artwork, full color process printing combines four basic colors — cyan, magenta, yellow, and black — offering a wide spectrum of vivid color and creating a lasting impression. Full color raised printing adds texture and dimension.

Perma Raised® Thermography

Perma Raised® is a special heat-resistant thermography process designed to withstand the high temperatures of office printers or copy machines without melting, smearing, or distorting color. All letterheads and envelopes are printed with Perma Raised® thermography unless otherwise indicated.

Raised Printing

Also referred to as thermography, raised printing is an economical option to garner a raised effect similar to engraving and embossing. Thermography is attractive and a widely preferred printing process that adds prestige to any printed piece. All orders will print with raised ink unless another process is specified or the product is listed otherwise.

Standard and PMS Inks

Standard inks are ink colors that are most commonly used like Black, Brown, Burgundy, Dark Blue, Green, Gray, Light Blue, Red, Reflex Blue, and Teal. Samples of standard inks can be found in the Stationery Swatch Book.

PMS inks are specific ink numbers from the PANTONE MATCHING SYSTEM®, the universal color matching and reproduction system that helps achieve 100% accuracy. *Standard and PMS ink price variations are noted in the price grid.

Offset printing presses are most often used to transfer the image from a plate to a rubber blanket. The image is then printed from the blanket on the printing press to the paper.

For more information about these processes, please contact us.

GENERAL INFORMATION: Business Cards

General Information for Manual Catalog Orders

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or files that are otherwise not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for details on prep charges.

Art charges apply in addition to standard setup charges for manual orders. Setup charges include basic file checks including margins, bleeds, embedded/outlined fonts and resolution of raster images.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

Back Copy on Spot Color Business Cards

Copy printed on the backside of a business card will be flat printed. Raised print is not available. For pricing see page 24.

Bleeds on Spot Color Business Cards

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed $\frac{1}{8}$ " beyond the paper size, on each side.

	500	1,000	Add'l 500
Standard & PMS Inks	\$9.75	\$9.75	\$3.25

(R) Prices shown are per edge.

Request a quote for bleeds:

- if more than 2 edges bleed
- if bleed area exceeds $\frac{1}{8}$ " in thickness

Margin Requirements

Business cards require a $\frac{1}{8}$ " margin on each side.

Master Business Card Program

Maintain your corporate image and save money and time. We print your "Master," consisting of your company name and standard company information. We hold the printed Masters and imprint with individual names and information as needed. The minimum quantity for Master Business Cards runs is as low as 10,000. Personalized imprints can be ordered in quantities of 250, 500, or 1,000. Contact us.

Multiple Lot Business Cards (Volume Discount)

Multiple lot discounts are available with text changes or omissions. Changes in registration, logos, bleeds, ink, stock, layout, etc. will be priced as separate orders. Contact us.

Oversized and Undersized Business Cards

Standard Business Cards measure $3\frac{1}{2}$ " x 2". Special card sizes measuring 1" x $2\frac{1}{2}$ " up to 4" x 4" are available. Contact us for more details.

Registration

Registration is when two inks or foils come within $\frac{1}{16}$ " or touch.

Request a quote on registration between:

- 3 or more ink or foil colors
- Ink and foil stamping
- Ink and foil embossing
- Ink and blind embossing
- Ink and die cutting
- Flat and thermography
- Engraving or letterpress and any other process

	500	1,000	Add'l 500
Registration between 2 inks	FREE	FREE	FREE
Registration between 3+ inks	\$19.90	\$19.90	
Registration between 2 foils	\$40.00	\$40.00	FREE

(R)

Round Corners

	50-250	500	1,000	2,000	2,500	5,000	10,000
Round Corners	\$8.30	\$16.00	\$18.20	\$30.30	\$33.60	\$48.50	\$92.00

(R) Rounded corners have $\frac{1}{4}$ " radius. If another radius size is wanted, contact us.

Special Foil Charge

\$50.20 (R) per item

Allow additional production time for special foils; please contact us. Holographic foils are available for an additional charge; contact us. See standard foil colors on page 24.

Die Charges

Single level recycled dies are included in the base price for foil stamping, ink with foil stamping, ink with blind embossing, and ink with foil embossing up to 7 square inches. Dies are not returned. Contact us for single or multilevel brass dies, if your image area exceeds the maximum square inches indicated above and/or appears in more than one position. Contact us for registration in combination with ink and any other process. Charges for dies vary according to the size and amount of detail in the design. Send artwork or a sample for a quote.

Engraving

For engraving, contact us.

Special Order Stock

For special order stocks, contact us. Allow additional time for special order stocks.

Customer Supplied Stock

Call us for a quote.

Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab on our website.

Typestyles

View a variety of typestyle choices for creating a unique custom image on page 60. Typestyles are also available on the "Help and Resources" tab online.

Logos

When your customer is looking for a simple design solution, help them enhance their stationery with our stock logos. View stock logos on the "Help & Resources" tab online.

Photos

Photos are not recommended in thermography or raised print. On all photographs, a copyright release form signed by the photographer must accompany the order.

Proofs

Digital proofs are provided at no charge on all online orders. Proofs on manual catalog orders are available for \$15.00 (R) each. For proofs that require typesetting and design, see "Art Charges" on page 27. This is **not** a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks and art/photo placement. Resolution of raster images on digital proofs is downsampled to make files a manageable size for emailing. Your printed product will use the native resolution of the artwork you provide to us. Production time starts after proof approval. Printed press proofs are billed as actual orders of the minimum quantity less 10%.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 214 for more information.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

GENERAL INFORMATION: Business Cards

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Fonts:

Using your illustration program, convert all text to curves or create outlines in your files. Never use the stylization palette to bold, italicize, add drop shadow, or to put outline on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

Margin Requirements:

Spot Color printing:

Business cards must be sent 1-up with at least 1/8" (.125") margin.

Full Color Process printing:

Business cards should have at least 1/8" (.125") margins.

Bleed Requirements:

Allow 1/8" (.125") on all sides. Please make sure the text still maintains the required margin even when graphics bleed.

Color Requirements:

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

Printing Black vs. Black:

To ensure the best possible results, many print products should use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black. Use printing black for:

- Any raised print products; this ensures an optimal raised appearance
- Flat or raised print orders which include black in registration with other colors, heavy ink coverage, or lines thicker than 2 points

Enhanced Finishes File Setup

See page 213.

Full Color Raised/Thermography Printing

Light skin tones, light colors, and low screen percentages will have a negative impact on the raised appearance of your product. For best raised printing results, we recommend that the Total Area Coverage be at 150% or higher. Total Area Coverage (TAC) is the total of the CMYK value of a color. For example, a card using a light blue color with a CMYK mix of 89, 10, 0, 0 has a TAC of 99%. This color will not work well with thermography because there is not enough ink coverage to hold thermography powder.

Spot Color Printing

Spot orders should be colored using the correct spot color swatch. You can create your own spot swatch or you can download and install our Swatch Library from our website. For PANTONE MATCHING SYSTEM® colors, it is best to use the PANTONE solid uncoated library that is already loaded within the program.

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality. Black & White Bitmap Image Mode should be used unless screens are present, Grayscale Image Mode should be used if screens are present.

Swatch Library

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through the process of setting up the file. The library and instructions for installation can be found under "Help and Resources" on our website.

Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black.....	Black
Brown.....	Brown
Burgundy.....	Burgundy
Dark Blue.....	Dark Blue
Gray.....	Gray
Green.....	Green
Light Blue.....	Light Blue
Red.....	Red
Reflex Blue.....	Reflex Blue
Teal.....	Teal
Any Foil or Embossing.....	Conversion (CRUCIAL for die ordering)
PMS Ink.....	Use actual PANTONE® Spot Color Swatch*

Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors.....	Actual Color
Black & 1 PMS Ink.....	Black & PANTONE® Spot Color Swatch*
2 PMS Inks.....	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink.....	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil.....	Black & Conversion
Black & Embossing.....	Black & Conversion

NOTE: Files will be used as is if not specified on your order blank.

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

Custom Options and Capabilities

Custom Sizes

Give us a call and you're on your way to creating a custom-sized piece.

Hole Drilling

Add pre-drilled holes to create binder inserts, easy-to-file marketing pieces, and other specialty uses.

Numbering

Perfect for raffles, keeping track of promotion quantity, and more. We offer consecutive numbering for virtually any need.

Perforating

Perforate anywhere on your project to create a functional, easy-to-separate marketing tool.

Scoring

Score your project for an accurate fold every time.

Shrink Wrapping

Shrink wrap orders in specific quantities for easy distribution.

Special Order Announcement Envelopes

Add personalization to your announcements with A-Style envelopes, including lined envelopes.

Special Order Papers

Many additional papers available in-house that are not shown in the catalog; contact us for more information. All Presentation Folder stocks are available for business card orders, too!

Typesetting/Special Artwork Services

Need a little extra help setting up your documents for print? Let our team of graphic artists help make your vision a reality. Contact us.

#9 Envelope

3 7/8" x 8 7/8"

#6 3/4 Envelope

3 5/8" x 6 1/2"

Envelope Templates available online.

Peel and Seal Envelopes

No wasting time! Professional-looking, convenient strips peel away

to adhere flap without moisture. Enjoy the extended shelf life and lose the worry about incomplete seals. Available in Regular, Window, Security Tint Regular, Security Tint Window, and Catalog (9" x 12" or 10" x 13").

Flip and Seal Envelopes

These self-sealing envelopes require no moisture to seal; just raise the lower flap and

press. The unique double flap design keeps the gum from sticking until you're ready to mail. Available in #10 Regular or Window. Adhesive has a limited shelf life.

Mailing Envelopes

Need more room? Looking for an envelope that gets attention? Choose 6" x 9", 9" x 12" or 10" x 13" mailing envelopes. Specify Catalog or Booklet style when ordering. If a style is not indicated, Catalog (open end) will be supplied.

Back Copy: Apply the back copy charge only to card announcements. There is no charge for back copy on foldover announcements if front and back panels are printed using the same colors and processes. Back copy will be flat printed. If no back copy color is specified, black ink will be supplied. If back copy is a different color than front copy, add an additional \$5.00 (R) for any standard and \$47.00 (R) for PMS inks.

Inside Copy: Apply the inside copy charge only to foldover announcements. Inside copy will be printed in flat print unless otherwise specified. Raised print is not available on the inside if the front and back panels are raised printed. If no inside copy color is specified, black ink will be supplied. If inside copy is a different color than the outside copy, add an additional \$5.00 (R) for any standard and \$47.00 (R) for PMS inks.

Envelope Imprint: Announcement Envelopes are flat printed on the back flap or front center for respond envelopes. Please indicate position on your order blank. If no indication is given, envelope flap will be used.

Fine Printing

Foil Embossing | Pairing the shine of foil stamping with the texture of embossing, foil embossing brings your design to new heights.

Spot Color with Foil Stamping | Foil stamping uses heat and pressure to add the elegance and shine of foil to your spot color print pieces.

Blind Embossing | Blind embossing presses a raised design into your stock for a subtle and stylish look.

Engraving | Engraved plates are handcrafted using acid etching on copper to create a die. Ink is then rolled over the die, and the die is wiped down so that the only ink that remains fills the etched areas. The ink is then applied to the final stock using pressure to create a crisp, clear image.

Engraving | With subtle elegance and the highest degree of professionalism, engraving is a classic process that allows for precision and fine detail.

The Fine Print

Fine printing options are perfect for professionals with an appreciation for the finer things in print. From the subtle raised texture and detailed look of engraving to the vibrant pairing of full color print and foil stamping, these timeless print processes are sure to make your print products and your business stand out from the crowd.

We would be proud to craft the print that sets you apart from the rest. Call us to discuss your custom fine printing order.

Imprint Processes

Blind Debossing

Debossing is an ink-free process similar to embossing, yet essentially the inverse. Instead of pressing a design from the back of the stock to create a raised image, debossing presses the design into the stock to create an indented image. This process can also be done with ink or foil and can, in some instances, be in register with them.

Blind Embossing

Blind embossing is a very subtle technique that is similar to stamping or engraving, except without ink. A design or text is pushed into the back of the paper using a metallic die and a counter die to leave a raised impression in the front, producing incredibly sophisticated stationery that can be both seen and felt. The raised representation of the design can either be a single-level, one dimensional design or a multiple-level, three-dimensional design created with a brass die.

Engraving

Engraving is a process similar to embossing, that uses pressure and ink. A die with an image or text etched into it is coated with ink. The excess ink around the non-imaging area of the die is wiped clean. The remaining ink resides only in the printable area of the die. This image is then pressed into the front of the paper. The resulting appearance is a slightly raised ink.

Enhanced Finishes: Raised Foil

With a look similar to foil embossing, Raised Foil brings depth and shine to your full color design. Add Raised Foil for a touch of raised metallic shine in your choice of nine different colors.

Enhanced Finishes: Raised Spot Gloss

Bring Spot Gloss to a new level! Not only does Raised Spot Gloss add an element of shine to your full color design, it adds dimension that makes those design elements stand out even more.

Enhanced Finishes: Spot Gloss

Used to add a touch of shine to your full color design, Spot Gloss can be used to create shining designs on its own or can enhance elements of your design with a glossy finish.

Flat Printing

Also called lithography, flat printing is the classic combination of ink and paper, creating an image that is level with the surface of the paper — neither raised nor depressed. Offset printing presses are used to transfer the image from a plate to a rubber blanket. The image is then transferred from the blanket to the paper.

Foil Embossing

Also known as hot leaf embossing, this process combines both embossing and foil stamping in either two steps (see definitions of “embossing” and “foil stamping”) or in one step using a foil emboss die which can be single or multilevel. Foil embossing requires both heat and pressure to push the design through the back of the paper into the foil and die at the same time. The resulting effect is a raised metallic image on the front of the paper.

Foil Stamping

Foil stamping, also known as hot stamping, is a process that uses heat and pressure along with metallic foil material to stamp a flat design or text onto paper via a metallic die. Foil stamped products immediately draw attention with a flashy, lustrous effect. When ordering, use the foil stamping or ink with foil stamping upcharge on the price grids for the paper you've selected.

Full Color Process - Flat and Raised

Ideal for complex color variations in artwork, full color process printing combines four basic colors — cyan, magenta, yellow, and black — offering a wide spectrum of vivid color and creating a lasting impression. Full color raised printing adds texture and dimension.

Perma Raised® Thermography

Perma Raised® is a special heat-resistant thermography process designed to withstand the high temperatures of office printers or copy machines without melting, smearing, or distorting color. All letterheads and envelopes are printed with Perma Raised® thermography unless otherwise indicated.

Raised Printing

Also referred to as thermography, raised printing is an economical option to garner a raised effect similar to engraving and embossing. Thermography is attractive and a widely preferred printing process that adds prestige to any printed piece. All orders will print with raised ink unless another process is specified or the product is listed otherwise.

Standard and PMS Inks

Standard inks are ink colors that are most commonly used like Black, Brown, Burgundy, Dark Blue, Green, Gray, Light Blue, Red, Reflex Blue, and Teal. Samples of standard inks can be found in the Stationery Swatch Book.

PMS inks are specific ink numbers from the PANTONE MATCHING SYSTEM®, the universal color matching and reproduction system that helps achieve 100% accuracy. *Standard and PMS ink price variations are noted in the price grid.

Offset printing presses are most often used to transfer the image from a plate to a rubber blanket. The image is then printed from the blanket on the printing press to the paper.

For more information about these processes, please contact us.

GENERAL INFORMATION: Stationery

General Information for Manual Catalog Orders

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or files that are otherwise not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges.

NOTE: Add two working days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

Back Copy for Card Announcements

Apply the back copy charge only to card announcements. There is no charge for back copy on foldover announcements if front and back panels are printed using the same colors and processes. Back copy will be flat printed. If back copy is a different color than front copy, add an additional \$5.00 (R) for any standard and \$47.00 (R) for PMS inks.

Inside Copy for Foldover Announcements

Apply the inside copy charge only to foldover announcements. Inside copy will be printed in flat ink unless otherwise specified. Thermography is not available on the inside if the front and back panels are printed in thermography. If no inside copy color is specified, black ink will be supplied. If inside copy is a different color than outside copy, add an additional \$5.00 (R) for any standard and \$47.00 (R) for PMS inks.

Blank A-Style (Square Flap) Lined Envelopes

Standard Vellum announcement pricing includes blank A-Style (square flap) envelopes. See pricing pages for printed envelopes or below for A-Style lined envelopes:

- A7 White Square Flap Gold Lined Envelopes - ANE-C4-AEV15-NS22
 - A7 White Square Flap Silver Lined Envelopes - ANE-C4-AEV16-NS22
- (A7 Envelopes accommodate 7 Baronial Announcements)

Add prices below to the base Announcement price.

	100	200	300	400	500	1,000	Add'l 100
Lined Envelope upcharge	\$10.50	\$20.90	\$31.30	\$41.80	\$52.20	\$104.30	\$10.40

(R)

Envelope Printing

When ordering envelopes, specify position of copy on envelope corner or flap. If no position is specified, upper left corner printing will be supplied. If the envelope is printed on the front and the flap, add the charge below to the base price. Envelope flap will be flat printed.

	500	1,000	2,000	2,500	5,000	10,000
1 Ink	\$46.50	\$48.60	\$52.40	\$54.00	\$63.70	\$83.20
2 Inks	\$93.00	\$95.10	\$98.90	\$100.50	\$110.20	\$129.70

(R) Production time: 1 additional working day for back copy.

If flap copy is a different color than front copy, add an additional \$5.00 (R) for any standard and \$47.00 (R) for PMS ink. When an envelope is engraved, embossed or foil embossed, the impression will show through on the back of the envelope. If you do not want the impression to show through, we can open the flap, engrave or emboss your copy and close the flap. This must also be done if you want any of these processes on the envelope flap. Add \$36.00 (R) per 1,000.

Announcement envelopes are flat printed on the back flap or front center for respond envelopes. Please indicate position on your order blank. If no indication is given, envelope flap imprint will be supplied.

Folding for Announcements

Announcements are scored and shipped flat. We will fold announcements for \$15.00 (R) per 1,000 minimum.

Phantom Watermark for Letterheads

A flat printed 5% screen of your logo printed in the center of your letterheads to simulate a paper watermark.

Add prices below to the base letterheads price.

	500	1,000	2,500	5,000
Phantom Watermark	\$32.60	\$41.90	\$59.80	\$87.60

(R) Production Time: 1 additional working day for phantom watermarks. Additional quantities available online.

Bleeds

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed 1/8" beyond the paper size, on each side.

Spot Color Letterheads & Announcements

	500	1,000	Add'l 500
Standard & PMS Inks	\$10.00	\$10.00	\$3.40

(R) Prices shown are per edge.

Request a quote for bleeds:

- if more than 2 edges bleed
- if bleed area exceeds 1/8" in thickness
- if letterheads bleed top and bottom

Margin Requirements

Envelopes: allow 1/4" from the top and side.

Letterheads: 3/8" at the top and 1/4" from the sides and bottom.

Full Color Non-panel Announcements: 1/4" margin on each side.

Spot Color Non-panel Announcements: 3/8" margin on each side.

Spot Color Panel Announcements:

- 4 Baronial: 1/2" Panel Edge, 3/4" Panel Margins
- 5 1/2 Baronial: 1/2" Panel Edge, 3/4" Panel Margins
- 6 Baronial: 5/8" Panel Edge, 7/8" Panel Margins
- 7 Baronial: 5/8" Panel Edge, 7/8" Panel Margins

Registration

Registration is when two inks or foils come within 1/16" or touch.

Request a quote on registration between:

- 3 or more ink or foil colors
- Ink and foil stamping
- Ink and foil embossing
- Ink and blind embossing
- Ink and die cutting
- Flat and thermography
- Engraving or letterpress and any other process

	500	1,000	Add'l 500
Registration between 2 inks	FREE	FREE	FREE
Registration between 2 foils	\$40.00	\$40.00	\$6.75

(R)

Special Foil Charge

\$50.20 (R) per item

Allow additional production time for special foils; please contact us for details. Holographic foils are available only through manual catalog orders for an additional charge; contact us for details. See standard foil colors on page 60.

Die Charges

Single level recycled dies are included in the base price for foil stamping, ink with foil stamping, ink with blind embossing, and ink with foil embossing up to a designated per-square-inch imprint area as follows:

Letterheads: 8 square inches

Envelopes: 4 square inches

Announcements: 12 square inches

Dies are not returned. Contact us for single or multilevel brass dies, if your image area exceeds the maximum square inches indicated above and/or appears in more than one position. Contact us for registration in combination with ink and any other process.

Charges for dies vary according to the size and amount of detail in the design. Send artwork or a sample for a quote.

Engraving

For engraving, contact us for details.

Special Order Stock

For special order stocks, contact us for details. Allow additional time for special order stocks.

Customer Supplied Stock

Call us for a quote.

Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab on our website.

Typestyles

View a variety of typestyle choices for creating a unique custom image on page 60. Typestyles are also available on the "Help and Resources" tab on our website.

Logos

When your customer is looking for a simple design solution, help them enhance their stationery with our stock logos. View stock logos on the "Help & Resources" tab online.

Photos

Photos are not recommended in thermography or raised print. On all photographs, a copyright release form signed by the photographer must accompany the order.

Proofs

Digital proofs are provided at no charge on all online orders. Proofs on manual catalog orders are available for \$15.00 (R) each. For proofs that require typesetting and design, see "Art Charges" on page 62. This is NOT a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks, and art/photo placement. Production time starts after proof approval.

Printed press proofs are billed as actual orders of the minimum quantity less 10%.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 214 for more information.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

GENERAL INFORMATION: Stationery

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Fonts:

Using your illustration program, convert all text to curves or create outlines in your files. Never use the stylization palette to bold, italicize, add drop shadow, or to put outline on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

Margin Requirements:

Spot Color printing:

1. Envelopes must allow ¼" (.25") from the top and side.
2. Letterheads must have at least ⅜" (.375") at the top and ¼" (.25") along all sides and bottom.

Full Color Process printing:

1. Postcards need at least ¼" (.25") margins.
2. Sales sheets, flyers and brochures require at least ¼" (.25") margin for the text or other image that doesn't bleed on all sides. If a bleed is wanted, the text still needs to be ¼" (.25") away from the edge.

Bleed Requirements:

1. Allow ⅛" (.125") on all sides. Please make sure the text still maintains the required margin even when graphics bleed.
2. Bleeds are not available on full color raised letterheads and all envelopes without a quote.

Color Requirements:

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

Printing Black vs. Black:

To ensure the best possible results, many print products should use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black. Use printing black for:

- Any raised print products; this ensures an optimal raised appearance
- Flat or raised print orders which include black in registration with other colors, heavy ink coverage, or lines thicker than 2 points

Enhanced Finishes File Setup

See page 213 for details.

Full Color Raised/Thermography Printing

Light skin tones, light colors, and low screen percentages will have a negative impact on the raised appearance of your product. For best raised printing results, we recommend that the Total Area Coverage be at 150% or higher. Total Area Coverage (TAC) is the total of the CMYK value of a color. For example, a card using a light blue color with a CMYK mix of 89, 10, 0, 0 has a TAC of 99%. This color will not work well with thermography because there is not enough ink coverage to hold thermography powder.

Spot Color Printing

Spot orders should be colored using the correct spot color swatch. You can create your own spot swatch or you can download and install our Swatch Library from our website. For PANTONE MATCHING SYSTEM® colors, it is best to use the PANTONE solid uncoated library that is already loaded within the program.

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality. Black & White Bitmap Image Mode should be used unless screens are present, Grayscale Image Mode should be used if screens are present.

Swatch Library

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through the process of setting up the file. The library and instructions for installation can be found under "Help and Resources" on our website.

Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black	Black
Brown	Brown
Burgundy.....	Burgundy
Dark Blue.....	Dark Blue
Gray.....	Gray
Green.....	Green
Light Blue.....	Light Blue
Red.....	Red
Reflex Blue.....	Reflex Blue
Teal.....	Teal
Any Foil or Embossing	Conversion (CRUCIAL for die ordering)
PMS Ink.....	Use actual PANTONE® Spot Color Swatch*

Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors.....	Actual Color
Black & 1 PMS Ink	Black & PANTONE® Spot Color Swatch*
2 PMS Inks	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink.....	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil	Black & Conversion
Black & Embossing	Black & Conversion

NOTE: Files will be used as is if not indicated on your order blank.

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

Custom Options and Capabilities

Custom Sizes

Give us a call and you're on your way to creating a custom-sized piece.

Hole Drilling

Add pre-drilled holes to create binder inserts, easy-to-file marketing pieces and other specialty uses.

Numbering

Consecutive numbering is an internal tracking mechanism perfect for raffles, keeping track of promotion quantity, inventory identification, permits and more.

Perforating

Perforate anywhere on your project to create a functional, easy-to-separate marketing tool.

Scoring

Score your project for an accurate fold every time.

Shrink Wrapping

Shrink wrap orders in specific quantities for easy distribution.

Special Order Announcement Envelopes

Add personalization to your announcements with A-Style envelopes, including lined envelopes.

Special Order Papers

Many additional papers available in-house that are not shown in the catalog; contact us for more information. All Presentation Folder stocks are available for business card orders, too!

Typesetting/Special Artwork Services

Need a little extra help setting up your documents for print? Let our team of graphic artists help make your vision a reality. Contact us for details.

Kitting, Direct Mail & EDDM Services

Scan the QR Code
for more details

How do your orders go from multiple vendors to a perfectly assembled package for your customer?

Navitor now offers pick-and-pack kitting fulfillment to extend your service offerings.

Here are the services and benefits we offer:

- Warehouse space for your inventory
- Reduced packaging costs and optimization for minimizing waste
- Picking, packing, and custom kitting
- Quality control

Typical kitting projects range from 2-7 unique parts and between 250-1,500 completed kits. Opportunities outside of this scope of work will be evaluated for complexity and in-hand dates.

Let us bring your next project together! [Contact **estimating@Navitor.com**](mailto:contact_estimating@Navitor.com) for your quote.

EDDM Options

You asked and we delivered...quite literally.

Every Door Direct Mail (EDDM) is an easy, affordable service perfect for smaller businesses who are looking to reach customers in a specific region or zip code. Offered by the USPS, this mailing service is priced at a lower cost-per-piece than traditional rates.

We have options ranging from print-only to full-service saturation, we can help you get your next direct mail campaign off the ground in no time flat. Contact us for a quote today.

Player Pride

Show off team spirit with athlete stats and yearly biographies

Age: 21
Weight: 195lbs.
Height: 6 ft 0 in
Position: Wide Receiver

Thomas accepted an athletic scholarship to attend the University of North Lincoln in 2016. As a freshman, Thomas tallied 1,896 all-purpose yards, which were second most in a single season in school history. He was selected second-team All-ACC return specialist in 2016. He was selected second-team All-Big Ten in recognition of his successful junior season in 2018.

Season	Receiving

GENERAL INFORMATION: Marketing Materials

Imprint Processes

Full Color Process

Four color process printing combines four basic colors — cyan, magenta, yellow, and black — to create multiple colors and a lasting impression.

Spot Color Process

Spot color process uses pre-mixed ink to create a striking one-color impression.

Flat Printing

Flat printing, also called lithography, is a printing process in which the image area is neither raised nor depressed. Offset printing presses are most often used to transfer the image from a plate to a rubber blanket. The image is then printed from the blanket on the printing press to the paper.

General Information for Manual Catalog Orders

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or disks that contain files that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

Bleeds

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed $\frac{1}{8}$ " beyond the paper size.

Customer Supplied Stock

Contact us for details.

Photos

On all photographs, a copyright release form signed by the photographer must accompany the order.

Proofs

Digital proofs are provided at no charge on all online orders. Proofs on manual catalog orders are available for \$15.00 (R) each. For proofs that require typesetting and design, see "Art Charges" above. This is NOT a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks, and art/photo placement. Production time starts after proof approval.

Printed press proofs are billed as actual orders of the minimum quantity less 10%.

Special Order Stock

For special order stocks, contact us. Allow additional time for special order stocks.

Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab on our website.

Typesyles

View a variety of typesyle choices for creating a unique custom image on page 60. Typesyles are also available on the "Help and Resources" tab on our website.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 168 for more information.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Fonts:

Using your illustration program, convert all text "to curves" or "create outlines" in your files. Never use the stylization palette to bold, italicize, add drop shadow, or to put outline on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

Bleed Requirements:

Allow $\frac{1}{8}$ " (.125") on all sides. Please make sure the text still maintains the required margin even when graphics bleed.

Color Requirements:

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

Enhanced Finishes File Setup

See page 213.

Custom Options and Capabilities

Are you looking for an option that is not featured in our catalog? We'd be happy to create something custom for you. Contact us about:

Custom Sizes

From special sized business cards to oversized postcards, we can do it all. Give us a call and you're on your way to creating a custom-sized piece.

Hole Drilling

Add pre-drilled holes to create binder inserts, easy-to-file marketing pieces, and other specialty uses.

Numbering

Perfect for raffles, keeping track of promotion quantity, and more, we offer consecutive numbering for virtually any need.

Padding

Bring together loose sheets in a perfectly personalized memo pad.

Perforating

Perforate anywhere on your project to create a functional, easy-to-separate marketing tool.

Scoring

Score your project for an accurate fold every time.

Shrink Wrapping

Shrink wrap orders in specific quantities for easy distribution.

Special Order Papers

Many additional papers available in-house that are not shown in the catalog.

Typesetting/Special Artwork Services

Need a little extra help setting up your documents for print? Let our team of graphic artists help make your vision a reality.

Showcase your product's personality

Helpful Information

- Inks and stocks shown are close representations only, ask us for a sample
- Ink density/color will vary depending on your label stock
- Black ink only is recommended for fluorescent stock
- Choose an ink color to floodcoat your stock to change the look
- Metallic Inks available, priced as a PMS Ink
- Other stocks available, ask us for more information and pricing

Helpful Information

- Also referred to as “butt cut” because labels are “butted” up next to each other without a gap in between
- For ink choices, see page 94
- See page 94 for FasTurn® Square Cut stock choices
- See page 100 for Outdoor Square Cut stock choices
- To determine your square inches, multiply label width by height
 - Minimum size square cut labels is 0.25" x 0.625"
 - Width must be a minimum of 0.625"
- Labels are provided on rolls
- Artwork and copy should be 1/8" from all edges
If bleeds are needed, please ask for pricing

One Color FasTurn® Square Cut Labels

Additional ink charges at bottom of price grid.

FasTurn® Labels - Water Bottle

Helpful Information

- For ink choices, see page 94
- Water bottles not included
- White Film BOPP stock is recommended if you plan to place in ice
- Labels provided on rolls and have square corners
- Bleeds available on all four sides
- UV Varnish is suggested on White Gloss stock as a moisture barrier
- Variable data and imaging available on labels printed with Process Color. See page 214

Not Sure What Size You Need?

Depending on bottle shape and size, we offer the following suggestions.

PLEASE measure your purchased water bottles for the closest listed label size.

Bottle Size	Suggested Die	Label Size
16.9 oz.	1394	1¾" x 8¾"
8 oz. / 12 oz. / 16.9 oz.	1395	2" x 8"
8 oz. / 16.9 oz.	1396	2½" x 8"
20 oz.	1397	2¾" x 9"
20 oz.	1478	3" x 8¾"

Labels - Foil Stamped and/or Embossed

Helpful Information

- Foil Stamp: Imprint using foil, a die and pressure, resulting in a metallic-colored impression
- Emboss: Pressing an image into paper so that it is raised above the paper's surface, no ink or foil is involved
- For best quality, we recommend at least a 3 pt thickness on all fonts, borders and fine lines
- Add a second foil imprint. See price grid for upcharge
- Ink and cold foil option available, contact us for more information
- Call for a quote for individually cut labels

Labels - Foil Stamped and/or Embossed

freeform™ Labels

Helpful Information

freeform™ is our laser cutting technology that lets you create uniquely shaped labels without dies. With minimums starting at 100 labels, freeform™ is ideal for prototyping, seasonal products, sticker sheets, new product lines, or products for start-ups!

- For ink choices, see page 94
- Provide dieline/cut path as a layer in your artwork. If not provided, art charges start at \$25.00 (Z) to create the path for you
- Labels provided on rolls. Individually cut labels available upon request
 - Add a \$37.00 (V) cutting charge per order
 - Minimum size is 2" x 2"
- To determine your square inch pricing category, multiply maximum width by maximum height

Example:

1.5"W x 2.25"H = 3.75" Square Inches

For 250 2-color labels, the cost is \$266.50 (\$211.50 + \$55.00)

Premium Stocks: add 25% upcharge to base price for ALL quantities

(P) Production time: 2 working days. To ensure FasTurn® production, please submit print-ready artwork by 2 p.m. CT

Helpful Information

- For ink choices, see page 94
- White back-up is suggested on clear polyester stock; see page 105
- **FREE** gloss lamination provides protection against moisture, scratching and outside elements
 - Matte lamination is available upon request
(Recommended if you plan to write on the label)
- Sunscreen lamination helps combat UV rays and may extend the fade resistance of some inks (see price grid below for additional charge)
- Consecutive numbering is available, see page 105

Calculating Square Inches

Example: 1.5"W x 2.25"H = 3.75"

For 250 2-color labels, the cost is \$302.50.00 (\$247.50 + \$55.00)

See price grid for upcharge

One Color freeform™ Outdoor Labels

Additional ink charges at bottom of price grid.

Repositionable Window Decals

Helpful Information

- For ink choices, see page 94
- **FREE** white ink back-up automatically provided on Clear Window Lite stock for increased readability (see page 105 for example)
- Fade resistance varies depending on ink color and/or geographic location
- Special adhesive that allows you to remove and reposition multiple times and leaves no residue when removed
- Indoor and outdoor applications
- **FREE** gloss lamination provides protection against moisture and scratching.
 - Matte lamination is available, if requested. *Recommended if you plan to write on the decal.*
- Sunscreen lamination helps combat UV rays and may extend the fade resistance of some inks. See price grid for additional charge
- Individually cut decals available upon request
 - Add a \$37.00 (V) cutting charge per order
 - Minimum size is 2" x 2"
- Variable data and imaging available on decals printed with Process Color. See page 214

Inside or outside read?

Please indicate if decal will be read from the inside or outside of a window. Reversed copy (read from the outside) is only available on Clear Window Lite stock

General Information For Manual Catalog Orders

Print-ready artwork is defined as artwork that is provided at 100% size, requires no typesetting and has a 1/8" margin on all sides, including a bleed when needed. Exact position of text and graphics should be indicated. For copyrighted images, submit an authorization form with your order.

Changes or Cancellations

Changes to orders in progress may require additional charges and/or time. Cancellations after an order is in progress will require payment for work completed. A minimum fee of \$25.00 (V) will be charged for all cancellations or changes. If the order has already been printed, the full order value will be charged.

Consecutive Numbering

Indicate a starting number and format (01,001,0001) when ordering. Consecutive numbering is available on most stocks and provided on rolls. Call for pricing on individually cut and numbered labels.

Consecutive Numbering Upcharge

100	250	500	1,000	2,000	3,000	5,000	10,000
\$97.00	\$97.00	\$97.00	\$97.00	\$105.00	\$112.00	\$127.00	\$165.00

Copy/Stock/Ink Changes

If you have copy, stock or ink changes for multiple lots or versions of labels, we may be able to group your order for better pricing. Contact us for details

Overruns

You will not be charged for Label overruns

Pantone Match/PMS Inks

\$50.00 (V) per ink

Proofs

Stock colors will not be represented on proofs and are available electronically or by fax. Proofs must be requested when orders are submitted and are available on the same day if received by 12 pm CT. First proof is free; additional proofs are \$18.00 (V). Once we receive your approval of the proof(s), we will begin creating your order. If you should decide against ordering, or place your order more than 30 days after the creation of the last proof, a minimum charge of \$18.00 (V) will be applied to your order.

Screens and Registration

Screens are available with a 5%-95% tint. Registration of color-to-color is within industry standards of 1/32".

Standard Inks

All standard inks are not opaque. They may appear transparent on clear stocks and some ink colors will vary on colored stocks.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 214 for more information.

Creating Your Files

Create one item sized correctly per document. Placed graphics and text should be sized at 100%. For freeform™ laser cut labels, create a layered file that includes the cut path.

Color Requirements

Spot Color Printing

Submit black and white bitmap mode images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing. For freeform™ laser cut labels, create a layered file that includes the cut path.

Process Color Printing

We recommend a minimum resolution of 300 dpi for any Photoshop file or placed (raster) image for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using Process Color, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in 4 color will differ from PANTONE® spot colors, sometimes significantly. Please refer to a Solid to Process Color Imaging Guide for color conversions.

Fonts

Using your illustration program, convert all text to curves or create outlines in your files. Never use the stylization palette to bold, italicize, add drop shadow to or put outline on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

Margin Requirements

Labels must be set up with at least a 1/8" margin.

Bleed Requirements

1/16" should be allowed on all sides. Example: Artwork for a 2" x 3" label with bleeds on all four sides would measure 2 1/8" x 3 1/8"

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

White Back-Up

Clear stock labels are a popular choice for many uses, but sometimes it needs a little help to ensure they are visible, easy to read and communicate effectively. White back-up is the process of applying white ink directly behind the artwork to make it easier to read on clear stocks.

Label Adhesives

All labels featured in this catalog, with the exception of Window lite, are provided with permanent adhesive and cannot be easily removed without certain solvents.

White Gloss Removable, White Matte Removable and White Polyolefin Removable will become permanent over time. These stocks do not remove well from paper.

Label Application

For best results, labels should always be applied at room temperature to smooth, dry, clean, oil-free surfaces. Ink colors will appear transparent on clear stocks. If there is any question as to the proper application, please request free samples to test.

Standard Ink Colors

Foil Colors

GENERAL INFORMATION: Folders

Stock Terms

Point (pt.): Caliper refers to the thickness of a single sheet of paper in thousandths of an inch.

Pound (lb.): Weight of 500 sheets in the stock's industry standard basic size (different for all paper types).

Uncoated Paper: Has a flat finish and is available in many textures. Uncoated has a porous, more natural feel. Most recycled paper is uncoated. Ink will soak into fibers of the paper. As a result, inks will appear different when printed on uncoated paper versus coated.

C1S Paper: Paper coated on one side.

C2S Paper: Paper coated on both sides.

Gloss Finish: Provides a lot of "shine" resulting in higher contrast. Good for full color images where color needs to "pop." However, this finish is very sensitive to dust and fingerprints (on UV Gloss Finish).

Semi-Gloss Paper: Provides a great compromise between a smooth/matte finish and a gloss finish. Helps reduce glare, dust and fingerprint issues.

Silk: Provides very little glare. Good for enhancing designs with more subdued layouts and color sets.

Print Process Codes:

- Spot Color
- FC** Full Color Process
- UV** UV Gloss Coating
- F** Foil
- E** Emboss
- LAM** Lamination

Environmental Paper Codes:

- CN** **Carbon Neutral:** This stock was made using carbon neutral processes with energy derived from natural processes that are replenished constantly.
- FSC** **Forest Stewardship Council:** This paper originates in a Forest Stewardship Council (FSC) certified sustainable, well-managed forest.
- GSC** **Green Seal Certified:** Stock contains at least 30% post-consumer material.
- PCW** **Post-Consumer Waste:** This stock was made using a certain percentage of recycled material (post-consumer waste).
- RE** **Renewable Energy:** This stock was manufactured using 100% renewable energy.
- ♻️** **Recycled Material:** This stock is made from recycled material.

Coatings

Aqueous Coating: This is a clear, fast-drying coating used to protect printed pieces. Aqueous satin and gloss coatings are available upon request.

Gloss: This is a glossy coating over the entire printed surface of a folder. See imprint upgrade table below.

Laminating: Gloss lamination provides a protective coating that produces a shiny, glass-like appearance that enhances the color and vibrancy of inks. Soft touch lamination offers a protective finish with a matte effect and a soft, velvet-like texture. These distinctive features appeal to tactile senses and encourage engagement.

Spot Gloss: This coating applies a highlighted high gloss sheen to targeted areas of your design.

UV Coating: Ultraviolet (UV) coatings provide added durability, and UV cured coatings are thicker and more protective than varnish or aqueous coatings. The following UV coating options are available for use on our coated paper stocks identified in the table on page 118.

Contact us for details.

(R) Price shown is per piece. *Price includes one standard foil color or single level emboss with a total coverage area of up to 36 square inches. Additional options increase production time, call for estimate. **Heavy ink coverage adds 2 production days.

GENERAL INFORMATION: Folders

General Information For Manual Catalog Orders

General Ordering — Standard Practices

Additional Die Set-Up

Additional die set-up charges will be applied as necessary if the 36 total square inches of coverage is exceeded for foiling or embossing.

Art Charges

If your layout requires special attention or your artwork is unsuitable for reproduction, we will make the necessary changes. You will be notified if artwork charges apply.

Business Card Slits

- Standard business card slit options include horizontal, vertical or half moon slits centered on the pocket.
- Slits can be centered on either the right, left or both pockets for no additional charge.
- The business card slits depicted on the line art for each product style throughout the catalog are for position only. Please specify position on your order.
- For special slit orientation or other slit options, contact us for details.

Coated Stocks

If your artwork requires copy to be printed across score/fold lines (ie. folder spine or pocket folds) we recommend changing to a 12 pt. stock to minimize the potential for cracking along those score/fold lines.

Uncoated Stocks

If your artwork requires copy to be printed across score/fold lines (ie. folder spine or pocket folds), we recommend changing to a 100 lb. stock to minimize the potential for cracking along those score/fold lines.

Die Charges

A die setup charge will be applied for an envelope slit, 4¼" custom pad slit, flash drive slits, or file card punch out. Custom die cut dies will vary in cost according to the size and amount of detail in your design. Call or send design for a price quote. Allow 5 working days. Dies will be stored at FolderWorks™ at no additional cost unless otherwise requested.

Drop Ship

Additional charge applies per location.

Final Folding & Shipping

Folders are shipped flat/open. If folders need to be folded in half when they are shipped, please indicate on order blank. Additional charges may apply to unglued folders.

Heavy Ink Coverage

- Any solid or screened areas exceeding 15% of the front or back cover (4" X 4" area) must be flat printed.
- Any solid areas of spot color exceeding 50% of the front or back cover will require the heavy ink coverage add on price. Additional production time will apply.

Inside Copy

Printing inside above pockets requires an extra charge due to the additional press run required. Contact us for details. Additional production time is also required.

Over/Underruns

All presentation folder orders are considered to be "exact quantity" orders. We send you the quantity you order. Absolutely no shortages! And, if we produce extras, we will not automatically send the extras and charge you for them.

Pocket Copy

When laying out copy for folder pockets, allow ¾" additional margin for reinforced edges. Printing on folder pockets is not considered inside copy.

Proofs

- Your first electronic proof is free! PDF and color proofs are available. Color proofs may not be exact. Add 2 working days to the production time when requesting a proof. Contact us for details.
- An Epson proof is also available (or as an alternative) for \$40 per side. This is a high resolution full color process digital proof for color matching and resolution purposes. It is not a fully produced folder; we will ship you a flat sheet of Epson paper printed with your customers artwork, including die lines for the cut and score areas.
- Press proofs available. Contact us for details.

Right to Promotion & Pricing

FolderWorks™ reserves the rights to use all products in our advertising and displays unless specified in writing at the time of order. Prices are subject to change without notice.

Rush Orders

If production schedule allows, charges for rush orders are based on time constraints and complexity of the order. Contact us for details and availability.

Third Party Shipping

Additional charges apply; contact us for details.

Special Ink

Special inks are available per color by selecting from the PANTONE® Color Formula Guide. Requesting an exact match from a color swatch or sample may require an additional color match charge.

Standard Inks

All standard and PMS inks are translucent. There is no additional charge for PMS inks. We do not recommend printing ink on dark colored stocks due to the ink discoloring. A no-charge reprint is not available when printing inks on dark colored stocks.

Creating Your Files

Bleed Requirements

Allow ⅛" (.125") on all sides. Make sure the text still maintains the required margin even when graphics bleed.

Color Requirements

Navitor now has a Accurate Color System. You can now send your files colored using the intended PANTONE® Matching System (PMS) color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

File Requirements

Create one item sized correctly per document. Placed graphics and text should be sized at 100%.

Fonts

Using your illustration program, convert all text "to curves" or "create outlines" in your files. Never use the stylization palette to bold, italicize, add drop shadow to, or put outlines on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

Four Color Process Printing

- Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). Files must be 300 dpi or higher.
- PANTONE® Matching System (PMS) spot colors and process colors are produced using different methods. Therefore, colors produced in four color process will differ from PANTONE® spot colors, sometimes significantly. Refer to a Solid to Process Color Imaging Guide for color conversions.

Margin Requirements

For spot color printing using one or more spot colors, artwork must have the position noted in the special instructions, or a sample must be attached. Four color process printing should have at least ⅛" (.125") margins.

Printing Black vs Black for Four Color Orders

Use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black when in registration with other colors, in areas with heavy ink coverage, and for bold type or lines (2.5 points or thicker). Use 100% black in all other instances. If the CMYK mixes used in your file do not match the Multicolor numbers chosen, we will use the file as is and print as a "CMYK Scan" with no guarantees.

Spot Color Printing

Submit black and white bitmap images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing.

Swatch Library

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through process of setting up the file. The library and instructions for installation can be found under "Help and Resources" on our website.

Changes or Cancellations

Changes to orders in progress may require additional charges and/or time Cancellations after an order is in progress will require payment for work completed.

General Ordering Information

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or disks that contain files that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

Artwork

Provide clean, flat, black and white, camera-ready artwork scaled to fit the imprint area.

Booking

Sets of snap set forms bound together. Our custom books are bound together with staples and most often a wraparound cover. The cover is 80# white vellum stock which doubles as a divider to separate the form being used from the unused forms.

Logos

View our stock logo selection on the Help and Resources tab online. Custom logo artwork should be provided in solid black. Prescreened artwork does not reproduce well. Logos will be placed in the upper left hand corner of the designated imprint area unless indicated otherwise.

Proofs

Digital proofs are provided at no charge on all online orders. Manual catalog proofs in black and white are available for \$15.00 (R) each. Production time starts after proof approval.

Snap Sets

Also known as snap-outs, snap apart or unit sets. Snap sets are multipart forms that have a perforated tear off stub on one edge.

Special Set-up

A special set-up charge of \$37.10 (R) will be added to the order when adding copy that is requested outside of the designated printing area on the preprinted forms. A previous sample or sketch of additional copy placement should be provided with the order.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

Typesetstyles

All Booklets and Snap Set forms are typeset in: Optima with the exceptions of: Receipt Books RBB2 and RBB3, Road Service Book, Sales Books G2SB and G3SB, and Snap Set Forms F6NC are typeset in Helvetica Neue LT Standard Bold, upper and lower case.

Register Forms are type set in: Goudy. The main line (line 1) of copy will be typeset in 12 point upper case characters. The remaining copy (lines 2-4) will be typeset in 10 point upper- and lower-case characters.

Laser, Three-to-a-Page Checks and Deposit Slips are typeset in:

Company Name: Helvetica Bold, 10 point upper case characters

Company Address: Helvetica Regular, 8 point upper case characters

Financial Name: Helvetica Bold, 8 point upper case characters

Financial Address: Helvetica Regular, 7 point upper case characters

Routing/Account Numbers: Magnetic Character Recognition (MICR) Standard 7 point

Laser Checks Basic, Standard, and Standard Plus:

Firm Name: Helvetica Bold, 10 point upper case characters

Address: Helvetica Regular, 7 point upper case characters

Financial Name: Helvetica Regular, 6 point upper case characters

Financial Address: Helvetica Regular, 6 point upper case characters

Routing/Account Number: Magnetic Character Recognition (MICR) 12 point

Post-it® Notes Custom Printed in Full Color

Making a Note of It

A perfect method of passive advertisement, Post-it® Notes offer value in their utility, mobility and reiteration. Favored because they are useful, they go where other forms of marketing can't and they offer constant advertising. Every time something is jotted down, your logo is seen—the rule of repetition is exceeded without irritation.

General Ordering Information

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for a quote on prep charges.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

Bleed Requirements

Artwork should extend 1/8" (.0625) beyond paper size on all sides. No additional charge where available.

Long Run Post-it® Notes

Artwork should extend 1/8" (.0625) beyond paper size on all sides. A bleed on the long run pads reduces the actual pad size by 1/8" for each bleed edge.

Post-it® Notes Cubes (bleeds only available on side print)

Artwork should extend 1/4" (.25) beyond paper size on all sides.

Cancellation Charge

Cancellations require a payment of \$55.00 per part/name plus any accrued charges (artwork, proofs, materials, etc.).

Note: removing reference to large quantities make this rule apply to all PINs, SR and LR.

Proofs

Digital proofs are provided at no charge on all online orders. Manual catalog proofs in black and white are available for \$15.00 (R) each. Add 2 working days to production time when requesting a proof. Production time starts after proof approval.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

Recycled Paper: Meets Federal requirements for recycled content.

Screens

Screens of more than 20% are not recommended in the writing area. Pre-screened artwork is not recommended.

Personalized Acrylic Holders with Spot Gloss Finish

The Spot Gloss Finish is a clear coating that you can put over any area in your design. To set up your art file, create one layer with the complete full color design and another layer with just the elements you want to have a spot gloss finish. Use PMS 100 to represent the areas where the spot gloss will be applied. We recommend using a minimum line weight of 3pt and a minimum text size of 6pt. Spot Gloss on Acrylic Holders is only available through manual catalog ordering.

Press file example with a spot gloss layer

Variable Data

Post-it® Notes offered in Short Run Quantities

Available on manual catalog orders of Full Color Post-it® Notes quantities of 320 or less. No additional production time is required.

Variable Text — \$31.25 (V)

Variable text is when the text changes from sheet to sheet within the pad. There is no limit to the number of characters or lines of text that can change per pad/sheet with this charge.

Contact Us For More Information:

- **Variable image:** an image or artwork changes on the Post-it® Notes pad from pad to pad or sheet to sheet, please contact us for more information.
- A combination of Variable Text and Variable image.

Post-it® and the color Canary Yellow are trademarks of 3M

General Information For Manual Catalog Orders

Proofs

Digital proofs are provided at no charge on all online orders. Manual catalog proofs in black and white are available for \$15.00 (R) each. Add 2 days to production time. Virtual proofs are available for \$15.00 (R). Add up to 4 additional days to production times.

Special Services

If your files require special attention to change or correct, and we are able to make the necessary changes with a quick fix, we will do so for a \$15.00 NET charge. Anything more involved than a quick fix will require additional charges. You will not be contacted unless the charge to fix your file exceeds \$15.00 NET.

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Artwork

You will need to provide clean, black and white or full color artwork scaled to fit the impression area. Black and white artwork should be sent without screens or shading. Black and white bitmap images should be submitted at 600 dpi. CMYK and grayscale images should be submitted at 300 dpi. All artwork should be sized at 100%.

All placed graphics and images need to be high quality and colored according to our guidelines for the product ordered. All supporting graphic files used within your layout must be sent along with the layout file, placed at 100%.

Do not send faxed art or photocopies. Laser copies must be a minimum of 600 dpi.

Screens: We do not recommend using screened colors on any artwork for promotional products.

Fonts

Using your illustration program, convert all text to curves or create outlines in your files. Never use the stylization palette to bold, italicize, add drop shadow to or put outlines on your fonts. If you are using fonts not owned by Navitor®, outlines must be created in illustration program before submitting your artwork.

Graphic Requirements

We accept electronic art created in the following applications: Adobe® Illustrator®, Adobe® Photoshop®, and Adobe® InDesign®.

Whenever possible, place vector images into the layout before converting to a PDF. Be aware that when changes need to be made to placed images (coloring, mode, etc.), there is the possibility of the quality being compromised.

Compressed files can be sent in the following formats: .sit, .sea, and .zip.

Color Requirements

We now have an Accurate Color System you can send your files colored using the intended PMS color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

Spot Color Printing

Please submit black and white bitmap images at 600 dpi and grayscale images at 300 dpi for standard spot printing.

Imprint Colors: Colors on paper may print differently on other substrates. The imprint colors are intended as a guide only, not an exact representation. PANTONE MATCHING SYSTEM® is not available.

Full-Color Process Printing

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

GENERAL INFORMATION: Promotional Products

Imprint Colors

The color of the ink used in your logo and/or design to be printed on the selected promotional product.

Special Artwork Instructions:

• For Clear and Frosted Decals, the artwork cannot have anything colored white; it will not print

• Only Clear and Frosted Decals can be applied to the inside of a window to be readable from the outside. If this is desired, it needs to be specified when order is placed and artwork needs to be mirrored when sent in. See example to the right.

(R) • Pricing based on all decals printing the same artwork

- Variable copy on static design is included; desired copy changes must be sent in electronically
- If bleeds are desired, artwork will need to extend ¼" from the edge
- PMS color match not guaranteed
- Minimum temperature for application is 40 degrees Fahrenheit
- For indoor applications—anticipated lifespan is 4 years for opaque decals and 2 years for clear decals and frosted decals

- Can be used for short term outdoor use. Exposure to extreme conditions (tropical climate, high humidity, high UV-light exposure or polluted areas) can decrease the durability of the decal
- Not recommended for the outside of vehicle windows
- Custom sizes available; contact us for quotes

Normal Artwork

Mirrored Artwork

Easy to reposition time and time again, decals are great for adding artwork to counter tops, walls and more.

Process: Digital Full Color; printed on one side only

Material: 4 mil. gloss vinyl

Production Time: 3 working days

Art Set-up Charge: FREE*

Attachments: Low-tack repositionable adhesive material that adheres to most flat surfaces such as walls, glass, cabinets, doors, and more. Peelable liner for easy application.

General Information

Print on Demand

Print on demand technology allows you to print only what you need, when you need it, which helps you better manage your inventory, reduce waste and save money.

Minimum Order Quantity of 1

Do you just need one or two banners or signs? No problem! You don't have to order extra to get the one you need. Order just what you need, when you need it.

Variable Printing

With variable printing technology, each item in a production run can be personalized. Whether you are ordering signs or banners, each item in your order can be uniquely personalized.

Fast Production Times

Do you need your order in a hurry? No problem! Just give your dedicated customer service team a call and we will do everything we can to expedite your order.

Material Selection

The printing industry is continually developing new materials and substrates to print on. Our relationships with the largest suppliers means no one has a larger media selection.

Customer Satisfaction Guarantee

Your satisfaction is our priority. If you are not satisfied with your order for any reason, we will do whatever it takes to make it right for you.

C. 4WB-5	1 3/4" x 2 3/4"	2" x 3"	\$12.30	\$11.95	\$11.55	\$11.20	\$10.80

C.

(R) • Pricing is based on all badges engraving the same artwork

- Variable copy on static design is included; desired copy changes must be sent in electronically
- For full color option:
 - If bleeds are desired, artwork will need to extend 1/8" from the edge
 - PMS color match not guaranteed
 - Light colors are NOT recommended as they will not show up well on the natural wood colored surface

• If no fastener is noted, a pin back will be used

- Available engraving typestyles can be found in the General Information guide, which can be accessed through the QR code provided at the end of this section
- Default is round corners. If square corners are wanted, please call for a custom quote
- Due to the natural characteristics of wood, the coloration and grain pattern may vary from one badge to the next
- Custom sizes available; contact us for quotes

General Information

Print on Demand

Print on demand technology allows you to print only what you need, when you need it, which helps you better manage your inventory, reduce waste and save money.

Minimum Order Quantity of 1

Do you just need one or two banners or signs? No problem! You don't have to order extra to get the one you need. Order just what you need, when you need it.

Variable Printing

With variable printing technology, each item in a production run can be personalized. Whether you are ordering signs or banners, each item in your order can be uniquely personalized.

Fast Production Times

Do you need your order in a hurry? No problem! Just give your dedicated customer service team a call and we will do everything we can to expedite your order.

Customer Satisfaction Guarantee

Your satisfaction is our priority. If you are not satisfied with your order for any reason, we will do whatever it takes to make it right for you.

California Prop65 Warnings

California's Safe Drinking Water and Toxic Enforcement Act of 1986, also known as Prop 65, requires a warning notice on products that contain chemicals identified by the State of California to cause cancer or reproductive toxicity. Over 900 chemicals are on California's list of Prop 65 chemicals and can be found at www.oehha.org/prop65.

To insure meeting Prop 65 guidelines, Navitor labels products free of charge that may ship into the State of California. The label will read as follows per direction from the State of California and the Office of Environmental Health Hazard Assessment:

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

G7 Master Printer Qualification

Getting the right color is key, and we can deliver the quality you need. As a Certified G7 Master Printer, we are committed to using state-of-the-art technology, printing techniques, proofing, press controls, and standards to produce a stunning visual match from proof to press. Our certification allows us to offer you precise color at every stage of the print process, and we renew certification every year to keep that precision up to date.

Enhanced Finishes General Information for Manual Catalog Orders

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction or disks that contain files that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for details on prep charges.

Art charges apply in addition to standard setup charges for manual orders. Setup charges include basic file checks including margins, bleeds, embedded/outlined fonts and resolution of raster images.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

Press Proofs

Want to ensure that your order is perfect? Order a quantity of one! For Enhanced Finishes orders, you have the option to order a press proof of a single business card, announcement, or postcard for \$33.50 (R) each before committing to the design. If your design needs adjusting, you can order another single print piece with the new design. Your press proof will ship at no charge via FedEx or UPS 2nd day air so that the product is in your hands quickly.

Digital Proofs

Digital proofs are provided at no charge on all online orders. Digital proofs on manual catalog orders are available for \$15.00 (R) each. For proofs that require typesetting and design, see "Art Charges." This is NOT a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks, and art/photo placement. Production time starts after proof approval.

GENERAL INFORMATION: Enhanced Finishes

Creating Your Enhanced Finishes Files

Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab online.

Art & File Requirements:

- All Enhanced Finishes must be layered on top of CMYK art and set to Overprint
- All Enhanced Finishes must be set as a Spot color swatch and named according to the chart below
- Enhanced Finishes cannot bleed and must have a 1/8" margin from the trim edge
- Full color elements must be CMYK only
- Full color elements may bleed and should include a 1/8" bleed from the trim edge
- Full color elements must have a 1/8" margin from the trim edge on business cards, and a 1/4" margin from the trim edge on announcements and postcards
- Enhanced Finishes that touch should be separated with 1 pt. gap to add greater definition and prevent elements from merging together
- Minimum point size for text: 8 pt.
- Minimum point size for line weight: .5 pt.
- Minimum full color raster artwork resolution: 300 dpi
- File color format: CMYK
- Accepted file format: PDF
- PDF file must be submitted as composite, layered file formatted as a 1-page PDF for 1-sided products or a 2-page PDF for 2-sided products
- Change all text into outlines in the document before exporting the PDF

Coloring your swatches for Enhanced Finishes

Desired Finish:	Name Your Color Swatch:
Spot Gloss.....	Spot Gloss
Raised Spot Gloss.....	Raised Spot Gloss
Raised Foil Black.....	Raised Foil Black
Raised Foil Gold.....	Raised Foil Gold
Raised Foil Dull Gold.....	Raised Foil Dull Gold
Raised Foil Silver.....	Raised Foil Silver
Raised Foil Dull Silver.....	Raised Foil Dull Silver
Raised Foil Red.....	Raised Foil Red
Raised Foil Light Blue.....	Raised Foil Light Blue
Raised Foil Green.....	Raised Foil Green
Raised Foil Holographic Silver.....	Raised Foil Holographic Silver

NOTE: The actual color build of the spot swatch will not impact the final print piece, but the name of the swatch must be consistent with the finish desired.

Swatch Library

Our Enhanced Finishes Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to our swatch colors and their mix settings to ensure that we print exactly what you create. The swatch library and instructions for installation can be found under "Help and Resources Enhanced Finishes" on our website.

PMS Colors

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

Printing Black vs. Black

Full Color Business Cards, Announcements, and Postcards with Enhanced Finishes should use 100% Black to ensure the best possible results on black elements. However, use Printing Black (C-80%, M-80%, Y-80%, K-95%) instead of 100% Black when in registration with other colors, in areas with heavy ink coverage, and for bold type or lines that are thicker than 2½ points.

Need help?

Guidelines and tutorials are available under "Help and Resources Enhanced Finishes" on our website. Please contact us for additional resources.

Example:

Below is an example of a Full Color Business Card with Raised Spot Gloss (represented by a spot swatch colored 100% Magenta.)

SEPARATIONS/LAYERS:

Full Color Layer ONLY (CMYK)

Raised Spot Gloss Layer ONLY

(Spot swatch named "Raised Spot Gloss" colored 0-100-0-0, and set to Overprint)

FINAL COMPOSITE PDF:

PRINTED BUSINESS CARD:

GENERAL INFORMATION: Variable Data

Variable Data Guidelines

Variable data is when text or image on the product changes from sheet to sheet. This can include text, images, or both. Each product page will specify if variable data is available.

Products with variable text are easy to order; just provide the following:

- A mockup of what the finished product will look like
- All art or images (see "Electronic Guidelines") and text to be printed on the item
- A database file, such as a CSV, that includes:
 - The header, which is the first row of the spreadsheet that describes each column
 - The database, which is the information that varies as shown below.

The database file is the variable information to be printed on the product, set up in a spreadsheet. Excel files are appropriate for most product lines; CSV files are preferred for labels and specialty products like badges and signs.

For variable images, include the names of the relevant image files in the spreadsheet and include an image placeholder in the proof. Be sure to submit image files along with the rest of the order. Variable Image orders require all files to be submitted and reviewed before a quote is provided. Please contact us for more information.

For variable text and variable images on the same order, please contact us for more information.

Variable Text Example

Customer database file:

	A	B	C
1	Name	Start Date	End Date
2	Sarah	September 4	October 4
3	Kara	September 7	October 7
4	Abigail	September 14	October 14
5	Jeannie	September 17	October 17
6	Ann	September 23	October 23
7	Shelley	September 25	October 25

Customer mockup file:

Final postcard example:

Variable Image Example

Customer database file:

	A
1	Animal Image
2	YellowLab.eps
3	LoveBirds.eps
4	Collie.eps
5	Bunny.eps
6	RedPuppy.eps
7	SiameseKitten.eps

Customer mockup file:

Final label examples:

Variable Data

Add charges below to your order. Variable Image orders require a quote.

Description	Item Number	Price Per Order
Variable Text	AEC-VTEXT-NS22	\$11.25

(V) Production time: 1 additional working day.

Variable Data - Labels

Add charges below to your labels order. Variable Image orders require a quote.

Description	100-1,000	2,000	3,000	5,000	10,000
Variable Text for Labels	\$92.50	\$99.75	\$107.00	\$121.50	\$157.75

(V) Production time: 1 additional working day.

Electronic Guidelines

Color Requirements

We now have an Accurate Color System. You can now send your files colored using the intended PMS color instead of having to color it using CMYK colors, excluding Enhanced Finishes orders. Every effort will be made to print your intended color within acceptable standards.

Spot Color Printing

1. Raster Artwork: Submit black and white images or grayscale images at 600 dpi for standard spot printing. If raster artwork is placed into a layout program (InDesign, Quark, CorelDRAW, etc.), the artwork can be colored per our guidelines. (See "Coloring Your Files.")
2. Vector Artwork: Every element of the file must be colored with spot colors (no RGB, CMYK, etc.). (See "Coloring Your Files.")

Full Color Process Printing

1. We recommend a minimum resolution of 300 dpi for any Photoshop files or placed (raster) image for best quality.
2. Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.).
3. If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.
4. Pantone® colors — While we are often able to closely reproduce a spot PMS® ink using full color process, PMS® spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from Pantone® spot colors, sometimes significantly. Please refer to a Solid to Process Color Imaging Guide for color conversions.
5. Do not modify Pantone® colors from their original values. If your order is full color, any modified Pantone® colors MUST be processed out.

Printing Black vs. Black for Full Color

1. Full Color Flat — Use Printing Black (C80%, M80%, Y80% K95%) instead of 100% Black when in registration with other colors, in areas with heavy ink coverage and for bold type or lines that are thicker than 2½ points.
2. Full Color Raised BC — Always use the CMYK percentages above for "Printing Black" regardless of registration or coverage.
3. Full Color Raised LH or ENV — Use Printing Black (C80%, M80%, Y80% K95%) instead of 100% Black when in registration with other colors, in areas with heavy ink coverage and for bold type or lines that are thicker than 2½ points.

Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black.....	Black
Brown.....	Brown
Burgundy	Burgundy
Dark Blue.....	Dark Blue
Gray	Gray
Green.....	Green
Light Blue.....	Light Blue
Red.....	Red
Reflex Blue.....	Reflex Blue
Teal.....	Teal
Any Foil or Embossing.....	Conversion (CRUCIAL for die ordering)
PMS Ink.....	Use actual PANTONE® Spot Color Swatch*

Coloring your files for Multiple Spot Color Printing

Desired Ink Colors	Use These Colors
Any 2 Standard Colors.....	Actual Color
Black & 1 PMS Ink.....	Black & PANTONE® Spot Color Swatch*
2 PMS Inks.....	PANTONE® Spot Color Swatches*
1 Standard & 1 PMS Ink.....	Actual Color & PANTONE® Spot Color Swatch*
Black & Foil.....	Black & Conversion
Black & Embossing.....	Black & Conversion

NOTE: Files will be used as is if not indicated on your order blank.

Native Applications

We accept files created in the following native applications:

Acrobat® PDF	Mac & PC PREFERRED FORMAT
Adobe® InDesign®	Mac & PC
Adobe® Photoshop®	Mac & PC
Adobe® Illustrator®.....	Mac & PC

We **DO NOT** accept files created in the following native applications:

CorelDRAW®	PC only
Microsoft® PowerPoint®.....	Mac & PC
Microsoft® Excel®.....	Mac & PC
Microsoft® Word®	Mac & PC
Microsoft® Publisher®	PC only
QuarkXPress®.....	Mac & PC

Application Requirements

PDFs — Macintosh® or IBM® Compatible

1. All fonts must be embedded.
2. All elements of the file must be colored per our guidelines.
3. All placed graphics and images need to be high quality, colored according to our guidelines (see "Coloring Your Files") for the product ordered. Whenever possible, place vector images into the layout before converting to a PDF. Be aware that when changes need to be made to placed images (coloring, mode, etc.), there is the possibility of the quality being compromised.
4. Name the PDF's without punctuation of any kind (except .pdf) or special characters. File names should be short.

Adobe® InDesign® — Macintosh® or IBM® Compatible

1. Change all text into outlines in your document.
2. If you are using an imported graphic in your InDesign® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save as an INDD file.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

Adobe® Photoshop® — Macintosh® or IBM® Compatible

1. Files must be saved as a TIFF without compression.
2. If using spot printing, do not color an image in Photoshop®.
3. Submit black and white bitmap mode images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing. Images that come to Navitor® at a lower quality than what is recommended will be output as sent.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")
5. All files need to be submitted at the size being used for printing.
6. If bleeds are needed, allow ⅛" (.125") on all sides unless otherwise noted.

Adobe® Illustrator® — Macintosh® or IBM® Compatible

1. Change all text into outlines in your document.
2. If you are using an imported graphic in your Illustrator® document, be sure to include or embed the original graphic file. Place graphics at 100%. Placed graphics need to be high quality or good vector art to receive the best quality printed product.
3. Save the file as an Illustrator EPS.
4. Color all text and graphics according to the color specifications for the type of product you are ordering. (See "Coloring Your Files.")

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order. PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.
