Quality Printing

Stand out from your competition with unique print processes. We offer one of the most diverse ranges of special print processes you'll find anywhere for presentation folders.

Capabilities and benefits include:

- Printing processes:
 - Full Color
 - UV Gloss Coating
 - UV Spot Gloss
 - Foil Stamping
 - Soft Touch Laminate
 - Embossing
 - Foil Embossing
 - Debossing
 - Spot Color
- 24-hour service on standard folders
- Three-day production lead times on over 80% of products

Our G7® Master Printer certification ensures color precision. We use the most modern technology, techniques, proofing and press controls to match color output from proof to print.

No Surprises, No Overages

There is never a charge for requesting an exact quantity! We will call and get approval before shipping and charging for any overages.

Your Folders, Your Colors

No extra fees for PMS inks!

We won't charge you extra to use the colors you want! Whether you want precise branded colors using the PANTONE® Matching System or prefer the simplicity of choosing from our standard ink selection, you'll pay the same price no matter what spot color ink you choose.

Pricing Transparency

Over the past few years, we have reduced and simplified many of our prices. However, continued aggressive increases from our suppliers are forcing us to adjust our pricing in 2023.

SIX STEPS TO ORDER

1

Select Your Style and Quantity

Choose from over 80 standard styles or call for a custom quote.

3

Pick Your Business Card Slit

- Standard business card slit options include horizontal, vertical or half moon slits centered on the pocket.
- Slits can be centered on either the right, left or both pockets for no additional charge.
- The business card slits depicted on the line art for each product style are for position only. Please specify business card slit position on your order.
- For custom slit orientation, please contact customer service for more information.
- See [page 26](#) for line diagrams and more details.

2

Choose Your Stock

41 paper stocks are available. See [page 24](#) for a complete list and selection guide.

4

Decide on Imprint Process

- All standard inks are available in flat printing.
- Foils may be flat or embossed.
- Four color process, embossing and debossing are also available.

5

Send Print-Ready Artwork

See our Electronic Guidelines on [page 27](#).

6

Indicate Special Instructions

Make sure you indicate all special instructions on your order including type style, point size and positioning.

DIGITAL FOLDER OFFER!

Only on Navitor.com

Need custom short-run presentation folders fast? Our most popular folders are digitally printed in full color process with high quality and durable UV inkjet ink — so no coating is necessary!

Because this folder uses the most common stock, style and process, it is all around the most popular folder — great for those who don't know exactly what route to go or if they just want a nice, easy folder to work with. We offer fast turn times, low quantities and free ground shipping (within 24 hours) to one location in the continental United States.

What's included:

MOST POPULAR STOCK - 12PT C1S

MOST POPULAR STYLE - F2 Folder

MOST POPULAR PROCESS - 4-Color Print

QUANTITIES from 25 to 500

FREE ground shipping

PRODUCED in 24 hours (if received and artwork is approved prior to 12 p.m. CST)

ONLY AVAILABLE on Navitor.com

CUSTOM OPTIONS

Can't find what you're looking for? Don't be afraid to call us! If you can't find exactly what your customer wants, give us a call at **1-877-294-5028**. We have access to thousands of dies that may fit your needs. And, for an order that is truly unique, we would be happy to discuss your one-of-a-kind project and provide you with a quote. We want to talk to you!

ADDITIONAL PRODUCT OPTIONS

POCKET PAGE

The 9" x 12" pocket page allows for quick, secure storage. The single exposed pocket is great for inter-company communication or informational pieces.

STEPED INSERTS

Stepped inserts provide a way to communicate important information about your business to new or existing customers. They allow messages to be "stacked" upon each other, calling out important features or information.

STITCHED INSERTS

Add interest to your presentation by combining the utility of a folder with the impact of a booklet, all in one. Stitched inserts are only available in the following styles: F1, F2, B1, B2, F2RD, F1S, and F2S.

MULTIMEDIA & FLASH DRIVE HOLDERS

Multimedia and flash drive holders are an excellent way to deliver digital information in a branded protective package. Whether it be financial documents on a flash drive or newborn images on a CD, these holders are sure to please.

PHOTO HOLDERS

Use photo holders as a way of delivering a special message to your employees, clients or community. A tastefully designed photo holder pairs beautifully with a holiday message printed on an announcement or a full color postcard.

LOOSE POCKET UNGLUED FOLDERS

Loose pocket folders are available with or without self-assemble tabs.

STANDARD PRESENTATION FOLDERS

STANDARD INK COLORS

FOIL COLORS

Colors shown are a close representation. Exact color will vary.

STOCKS, FOILS, INKS & UPGRADES

STOCK CODES

Point (pt.): Caliper refers to the thickness of a single sheet of paper in thousandths of an inch.

Pound (lb.): Weight of 500 sheets in the stock's industry standard basic size (different for all paper types).

Uncoated Paper: Has a flat finish and is available in many textures. Uncoated has a porous, more natural feel. Most recycled paper is uncoated. Ink will soak into fibers of the paper. As a result, inks will appear different when printed on uncoated paper versus coated.

C1S Paper: Paper coated on one side.

C2S Paper: Paper coated on both sides.

Gloss Finish: Provides a lot of "shine" resulting in higher contrast. Good for full color images where color needs to "pop". However, this finish is very sensitive to dust and fingerprints (on UV Gloss Finish).

Semi-Gloss Paper: Provides a great compromise between a smooth/matte finish and a gloss finish. Helps reduce glare, dust and fingerprint issues.

Silk: Provides very little glare. Good for enhancing designs with more subdued layouts and color sets.

PRINT PROCESS CODES

	Spot Color
FC	Full Color Process
UV	UV Gloss Coating
F	Foil
E	Emboss
LAM	Lamination

ENVIRONMENTAL PAPER CODES

CN	Carbon Neutral: This stock was made using carbon neutral processes with energy derived from natural processes that are replenished constantly.
FSC	Forest Stewardship Council: This paper originates in a Forest Stewardship Council (FSC) certified sustainable, well-managed forest.
GSC	Green Seal Certified: Stock contains at least 30% post-consumer material.
PCW	Post-Consumer Waste: This stock was made using a certain percentage of recycled material (post-consumer waste).
RE	Renewable Energy: This stock was manufactured using 100% renewable energy.
	Recycled Material: This stock is made from recycled material.

STOCK UPGRADE

Add Charges to Base Price Per Piece	50	100	250	500	1,000	1,500	2,000	2,500	3,000	5,000
Class 2	\$0.160	\$0.160	\$0.160	\$0.160	\$0.160	\$0.160	\$0.160	\$0.160	\$0.160	\$0.160
Class 3	\$0.305	\$0.305	\$0.305	\$0.305	\$0.305	\$0.305	\$0.305	\$0.305	\$0.305	\$0.305
Class 4	\$0.596	\$0.596	\$0.596	\$0.596	\$0.596	\$0.596	\$0.596	\$0.596	\$0.596	\$0.596

(R) Price shown is per piece. These stocks are available on any folder product where the Stock Upgrade icon is shown. The price per piece for all stock upgrades do not vary by quantity. Stocks will be printed flat unless otherwise indicated.

LAMINATION UPGRADE

Add Charges to Base Price Per Piece	50	100	250	500	1,000	1,500	2,000	2,500	3,000	5,000
Soft Touch Lamination	\$4.330	\$2.568	\$1.194	\$0.894	\$0.797	\$0.761	\$0.738	\$0.721	\$0.707	\$0.672
Gloss Lamination	\$4.202	\$2.173	\$0.955	\$0.565	\$0.471	\$0.445	\$0.432	\$0.425	\$0.420	\$0.409

(R) Price shown is per piece. Production time: 3 working days. Lamination available single-sided only. For best results recommended use on coated stocks only. Lamination is available on any stock indicated in the stock chart on page 28.

IMPRINT UPGRADE

Add Charges to Base Price Per Piece	50	100	250	500	1,000	1,500	2,000	2,500	3,000	5,000
Heavy Ink Coverage**	\$3.842	\$1.970	\$0.821	\$0.441	\$0.260	\$0.185	\$0.154	\$0.133	\$0.123	\$0.084
UV Gloss Coating	\$1.440	\$0.774	\$0.332	\$0.213	\$0.154	\$0.137	\$0.133	\$0.117	\$0.117	\$0.110
AQ Coating	\$0.509	\$0.269	\$0.125	\$0.079	\$0.054	\$0.046	\$0.042	\$0.039	\$0.038	\$0.035
Additional Ink	\$3.799	\$1.936	\$0.796	\$0.416	\$0.237	\$0.173	\$0.136	\$0.122	\$0.104	\$0.072
Additional Foil Stamp Color*	\$3.986	\$2.157	\$0.884	\$0.509	\$0.314	\$0.262	\$0.225	\$0.202	\$0.185	\$0.135
Additional Emboss Area*	\$9.908	\$5.092	\$2.079	\$1.144	\$0.636	\$0.444	\$0.344	\$0.292	\$0.272	\$0.187
4/4 Printing <i>New!</i>	\$9.760	\$4.934	\$2.044	\$1.087	\$0.590	\$0.424	\$0.339	\$0.288	\$0.257	\$0.204

(R) Price shown is per piece. *Price includes one standard foil color or single level emboss with a total coverage area of up to 36 square inches. Additional Run Upgrades can only be combined with like processes and can not be crossed over, meaning additional foil or embossing cannot be added to Ink printing base price. Additional options increase production time, call for estimate. **Heavy ink coverage adds 2 production days.

SHRINK WRAPPING UPGRADE

Add Charges to Base Price Per Piece	50	100	250	500	1,000	1,500	2,000	2,500	3,000	5,000

CHANGES OR CANCELLATIONS

Changes to orders in progress may require additional charges and/or time. Cancellations after an order is in progress will require payment for work completed.

ORDER STANDARD PRACTICES

FINAL FOLDING & SHIPPING

Folders are shipped flat/open. If folders need to be folded in half when they are shipped, please indicate on order blank. Additional charges may apply to unglued folders.

BUSINESS CARD SLITS

- Standard business card slit options include horizontal, vertical or half moon slits centered on the pocket.
- Slits can be centered on either the right, left or both pockets for no additional charge.
- The business card slits depicted on the line art for each product style throughout the catalog are for position only. Please specify position on your order.
- For special slit orientation or other slit options please call for a quote.

PROOFS

- Your first electronic proof is FREE! A PDF proof is available upon request at time of ordering. Color proofs may not be exact. Add two working days to the production time when requesting a proof. Call for a quote.
- Press proofs available. Call for a quote.

ART CHANGES

If your layout requires special attention or your artwork is unsuitable for reproduction, we will make the necessary changes. You will be notified if artwork charges apply.

OVER/UNDERRUNS

All presentation folder orders are considered to be "exact quantity" orders. We send you the quantity you order. Absolutely no shortages! And, if we produce extras, we will not automatically send the extras and charge you for them.

RUSH ORDERS

If production schedule allows, charges for rush orders are based on time constraints and complexity of the order. Contact us for availability and pricing.

THIRD-PARTY SHIPPING

Additional charges apply; contact us for pricing.

DROP SHIP

Additional charge applies per location.

INSIDE COPY

Printing inside above pockets requires an extra charge due to the additional press run required. Call for quote. Additional production time is also required.

POCKET COPY

When laying out copy for folder pockets, allow $\frac{3}{4}$ " additional margin for reinforced edges. Printing on folder pockets is not considered inside copy.

DIE CHARGES

A die setup charge will be applied for an envelope slit, $\frac{1}{4}$ " custom pad slit, flash drive slits, or file card punch out. Custom die cut dies will vary in cost according to the size and amount of detail in your design. Call or send design for a price quote. Allow five working days. Dies will be stored at FolderWorks™ at no additional cost unless otherwise requested. Any die that is not used within 12 months will no longer be stored at FolderWorks™ and will need to be repurchased.

ADDITIONAL DIE SET-UP

Additional die set-up charges will be applied as necessary if the 36 total square inches of coverage is exceeded.

COATED STOCKS

If your artwork requires copy to be printed across score/fold lines (ie. folder spine or pocket folds) we recommend changing to a 12 pt. stock to minimize the potential for cracking along those score/fold lines.

UNCOATED STOCKS

If your artwork requires copy to be printed across score/fold lines (ie. folder spine or pocket folds), we recommend changing to a 100 lb. stock to minimize the potential for cracking along those score/fold lines.

RIGHTS TO PROMOTION & PRICING

FolderWorks™ reserves the right to use all products in our advertising and displays unless specified in writing at the time of order. Prices are subject to change without notice.

INKS

HEAVY INK COVERAGE

- Any solid or screened areas exceeding 15% of the front or back cover (4" x 4" area) must be flat printed.
- Any solid areas of spot color exceeding 50% of the front or back cover will require the heavy ink coverage add-on price. Additional production time will apply.

STANDARD AND PMS INKS

All standard and PMS inks are translucent. There is no additional charge for PMS inks. We do not recommend printing ink on dark colored stocks due to the ink discoloring. A no-charge reprint is not available when printing inks on dark colored stocks.

COLOR MATCHING

- Industry standard ink densities are used for PANTONE® Matching System (PMS) inks.
- No extra charge for using PMS inks!
- If color matching is needed, a sample is required and must be clarified and approved before production begins.
- Colored stocks may alter the appearance of the chosen ink color(s). Exact match is not guaranteed.

SPECIAL INK

Special inks are available per color by selecting from the PANTONE® Color Formula Guide. Requesting an exact match from a color swatch or sample may require an additional color match charge.

SCREENS

A screen is a dot pattern of a solid ink color that makes that color look lighter. For example, when red ink is screened it looks pink. There is no additional charge for screens. Standard screen percentage is 20%, which will be used unless otherwise indicated. We use a line screen of 120.

COATINGS TERMS

Aqueous Coating: This is a clear, fast-drying coating used to protect printed pieces. Aqueous satin and gloss coatings are available upon request.

Gloss: This is a glossy coating over the entire printed surface of a folder. See imprint upgrade table below.

Laminating: Gloss lamination provides a protective coating that produces a shiny, glass-like appearance that enhances the color and vibrancy of inks. Soft touch lamination offers a protective finish with a matte effect and a soft, velvet-like texture. These distinctive features appeal to tactile senses and encourage engagement.

Spot Gloss: This coating applies a highlighted high gloss sheen to targeted areas of your design.

UV Coating: Ultraviolet (UV) coatings provide added durability, and UV cured coatings are thicker and more protective than varnish or aqueous coatings. The following UV coating options are available for use on our coated paper stocks identified in the table on page 24.

FOIL STAMPING OR EMBOSsing

FOIL STAMPING OR EMBOSsing DIE CHARGES

For orders with foil stamping or single-level embossing with up to 36 total square inches of coverage, there is no additional charge for dies. For orders not within these parameters or for special foil colors, call or send artwork for a quote. Charges for dies vary according to the size and amount of detail in your design. We will notify you of any additional costs before processing your order. Send actual sized artwork or a sample for an estimated die charge.

FOIL AND EMBOSsing DIES

This is a process that combines foil stamping and embossing into one press run. A brass die is required for this process. Send artwork for a quote.

DIE TYPES

Various types of dies are available.

Magnesium Dies: These single level dies are used for foil stamping. They will be recycled after use.

Copper Dies: These single-level dies are used for foil stamping and embossing. Copper dies provide crisp quality without the expense of a brass die. Copper dies are recycled after use.

Brass Dies: These single or multi-level sculpted dies are used for embossing or foil embossing. These dies produce a deep, crisp image with well-defined edges. NOTE: fine lines and type do not foil emboss well. Mail or e-mail artwork for a quote.

SOFTWARE

NATIVE APPLICATIONS

We accept files created in the following native applications:

- Acrobat PDF (MAC & PC)
- Adobe Photoshop® (MAC & PC)
- Adobe Illustrator® (MAC & PC)
- Encapsulated Postscript Files (EPS)

We DO NOT accept files created in the following native applications:

- Microsoft® PowerPoint® (MAC & PC)
- Microsoft® Excel® (MAC & PC)
- Microsoft® Word® (MAC & PC)
- Microsoft® Publisher® (MAC & PC)
- CorelDRAW® (MAC & PC)

ELECTRONIC GUIDELINES

FILE REQUIREMENTS

Create one item sized correctly per document. Placed graphics and text should be sized at 100%.

FONTs

Using your illustration program, convert all text to curves or create outlines in your files. Never use the stylization palette to bold, italicize, add drop shadow to, or put outlines on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

MARGIN REQUIREMENTS

For spot color printing using one or more spot colors, artwork must have the position noted in the special instructions, or a sample must be attached. Four color process printing should have at least 1/8" (.125") margins.

BLEED REQUIREMENTS

Allow 1/8" (.125") on all sides. Make sure the text still maintains the required margin even when graphics bleed.

SPOT COLOR PRINTING

Submit black and white bitmap images at 600 dpi and grayscale mode images at 600 dpi for standard spot printing.

COLOR REQUIREMENTS

Navitor now has a new Accurate Color System. You can now send your files colored using the intended PANTONE® Matching System (PMS) color instead of having to color it using CMYK colors. Every effort will be made to print your intended color within acceptable standards.

FOUR COLOR PROCESS

- Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). Files must be 300 dpi or higher.
- PANTONE® Matching System (PMS) spot colors and process colors are produced using different methods. Therefore, colors produced in four color process will differ from PANTONE® spot colors, sometimes significantly. Refer to a Solid to Process Color Imaging Guide for color conversions.

PRINTING BLACK VS. BLACK FOR FOUR COLOR ORDERS

Use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black when in registration with other colors, in areas with heavy ink coverage, and for bold type or lines (2.5 points or thicker). Use 100% black in all other instances. If the CMYK mixes used in your file do not match the Multicolor numbers chosen, we will use the file as is and print as a "CMYK Scan" with no guarantees.

SWATCH LIBRARY

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through process of setting up the file. The library and instructions for installation can be found under "Help and Resources" on our website.

COLORING YOUR ARTWORK FOR SPOT COLORS

COLORING YOUR FILES FOR SPOT COLOR PRINTING

Desired Ink Color	Name Your Color Swatch
